

REMARKS**Paragraph 1 of the Office Action**

5 The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "16" has been used to designate both front wall and front opening.

The specification has been amended to clarify any deficiencies. In particular, reference character 16 was used incorrectly in the specification and the drawings are believed to be correct.

10 **Paragraphs 1-6 of the Office Action**

Claims 1-5 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Baillie et al. in view of Hotter. Claims 6-9 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Baillie et al. as modified by Hotter as applied to Claims 1, 2 above, and further in view of Schwartz. Claim 10 is rejected under 35 U.S.C. § 103(a) as being
15 unpatentable over Baillie et al. as modified by Hotter as applied to claim 1 above, and further in view of Vicknair. Claim 11 is allowed.

Claims 1-10 have been cancelled.

Withdrawal of the rejection is respectfully requested by the applicant.

20 **New Claim**

New claim 12 has been added to vary the scope of the claims. In particular, claim 12 includes the structural limitations of claim 11 absent any measurements and is therefore believed to be in condition for allowance. No new matter has been added and references therein are fully supported in the specification and claims as filed.

Respectfully submitted,
